SUBJECT : Operations Center Response to NOIWON Upgrade

1. The proposed improvement in NOIWON capabilities outlined in your memo dated 7 July, poses no significant concerns for our Operations Center. While the new design eventually will prompt NOIWON membership and perhaps operational questions, we anticipate that the most serious of these will be answered by policy decisions beyond the scope of individual national centers.

2. An especially attractive part of the new system is the options available to fit local security and administrative practices. For example, it is unlikely we would use speaker attachments because of the openness of our work space.

3. We appreciate the work being done by the Information Handling Committee on behalf of all operations centers.
